

FIRE PREPAREDNESS WORKS NOTIFICATION

Hazardous tree removal will take place in Dandenong Ranges National Park in Montrose and Mount Evelyn in preparation for spring planned burning.

Date: Early September 2021

Duration: Approximately five weeks (weekdays only).

Location: Far north area of Dandenong Ranges National Park bounded by Moore Avenue, Mountain Crescent, and Wombalano Road (see map next page).

Impact: **Moore Avenue, Mountain Crescent, and Wombalano Road will have one lane closed during some parts of the works. There may be short delays to road users.**

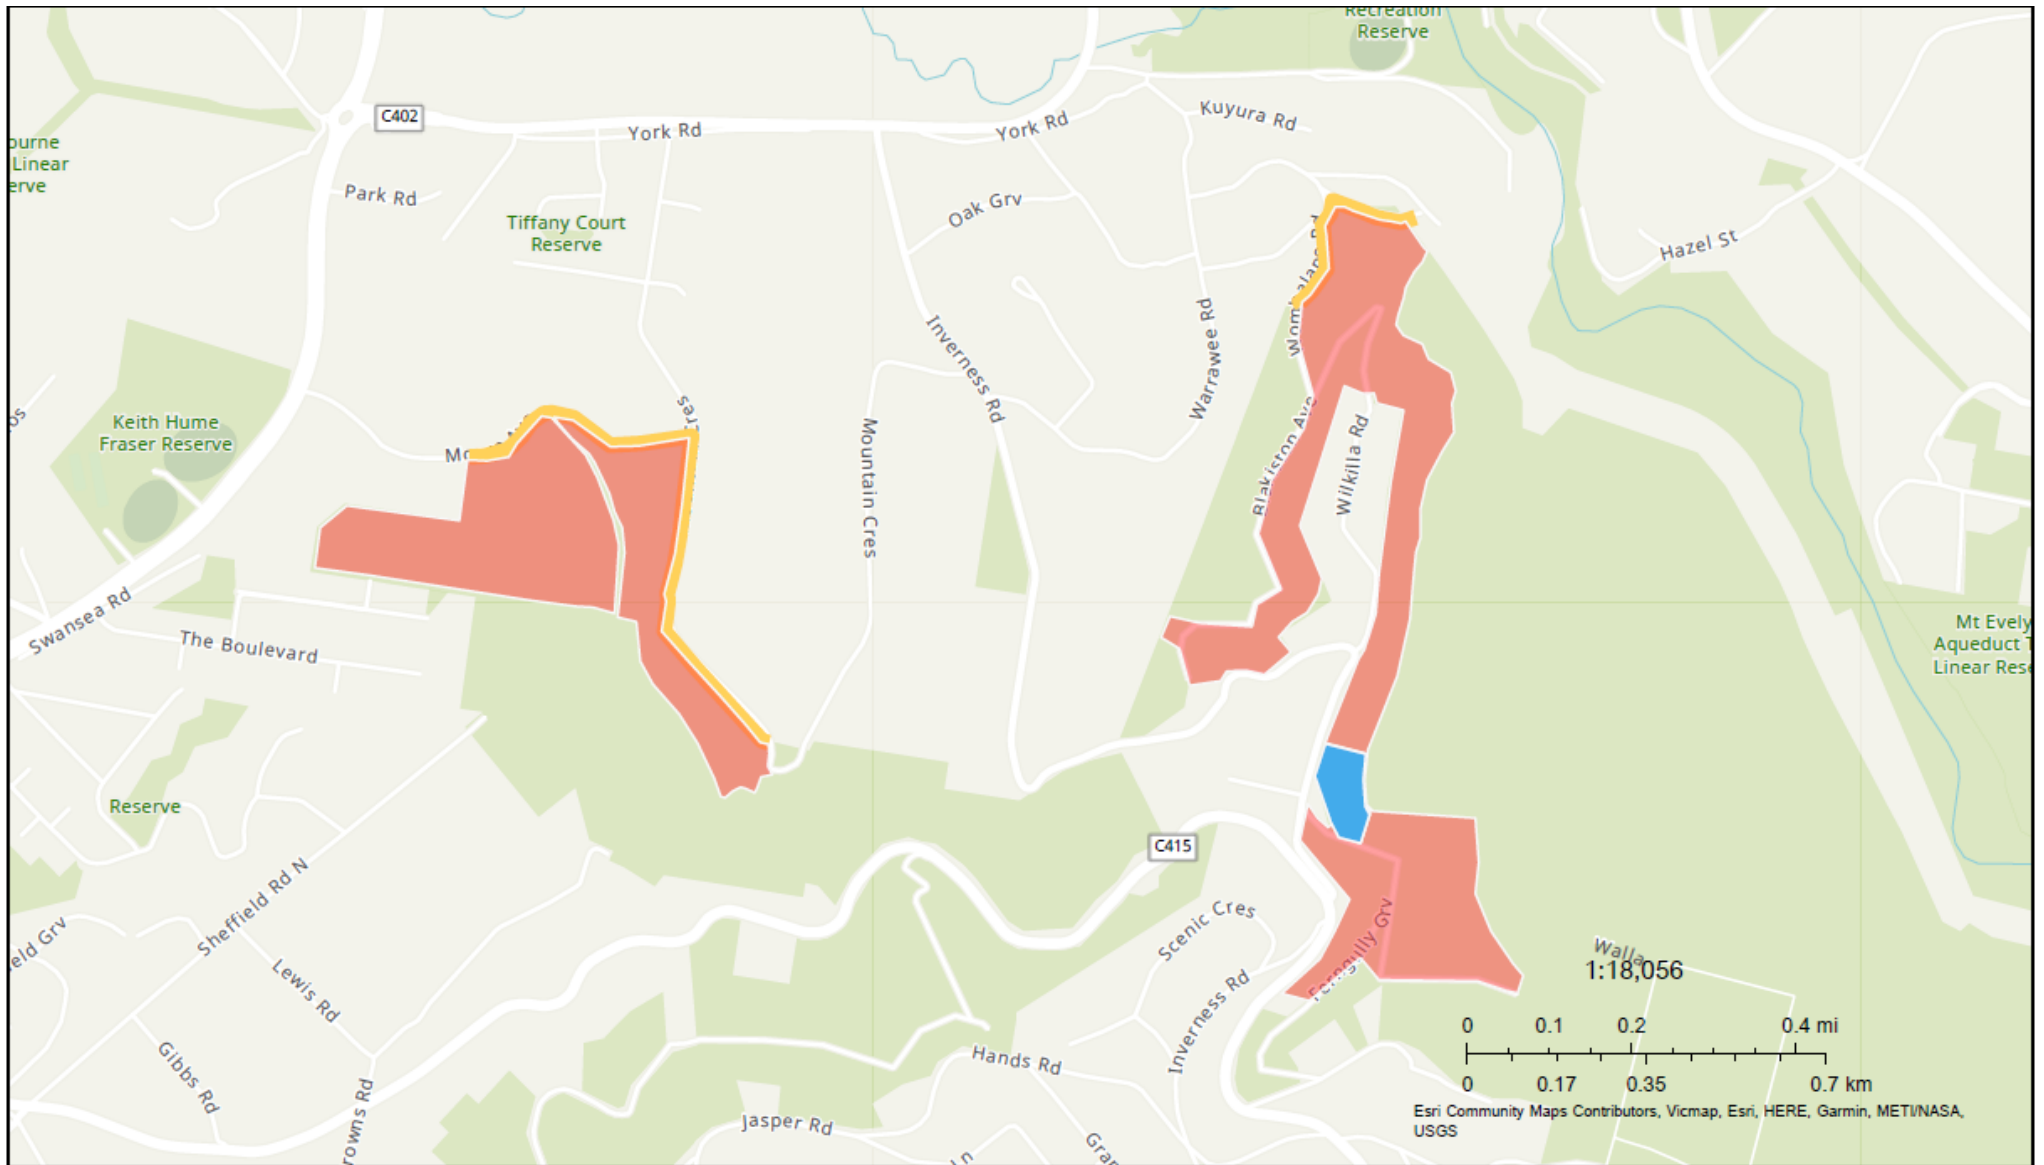

No park access or tracks are impacted by these works.

Environmental and cultural heritage assessments have been undertaken to ensure important areas are protected.

Why: This work supports the safe delivery of three planned burns proposed for spring 2021– St Marks, Browns Track and the western portion of Wilkilla Road. Visit www.ffm.vic.gov.au/jfmp to find out more about the planned burn program.

These blocks sits within a bushfire Asset Protection Zone (APZ) and Bushfire Moderation Zone (BMZ) . These areas are managed regularly using planned burning and mechanical means to reduce bushfire risk to the surrounding communities.

For more information about this work call 13 1963, for information about planned burning call 136 186.

- The yellow lines show the location of the hazardous tree removal works on Moore Avenue, Mountain Crescent, and Wombalano Road.
- The red shaded areas are the planned burn units proposed for spring.
- The blue shaded area is proposed to be treated by mulching later in the year.
